To the New York Missions (by email)
To the Japan Embassies (by email)
To the Development Committee

Your Excellencies,

The power transition model that came to the World Bank from the US National War College in 2004 <https://s3.amazonaws.com/khudes/sentia+model.pdf> has been predicting with 95% likelihood that a coalition for the rule of law would come into being to end the corruption in the international financial system.

I have been working with the G-77 to achieve this breakthrough ever since 1976, when I wrote a paper on the legislative history of the G-77, and when Ibrahim Shihata hired me into the World Bank in 1986. The people of the world are now in charge, and I am your servant.

Sincerely,

Karen Hudes
Overseer Mandate Trustee,
Global Debt Facility TVM-LSM-666
Acting General Counsel

⌚ Hold on, this is waiting to be approved by Examiner.com.

The U.S. of A. has been under 'Military Rule' (See Articles 3 & 8 of the Lieber Code) of 12 Statute 319 since August 9, 1861. This is the threshold authority for Obama's dictatorial powers. The Civil War Military enforced this upon civilians under General Orders 100 (Article 149 of the Lieber Code).
Researched by William Whiting, Solicitor General of the U.S. under Lincoln. Whiting on The War Powers of the President and the Legislative Powers of Congress in Relation to Rebellion, Treason, and Slavery" (Boston, 1862; 10th ed., with large additions, 1863; 43d ed., 1871). In this he formulated views that he had urged at the opening of the civil war, namely, that the United States government had full belligerent rights against the inhabitants of seceded states, and without going beyond the constitution could confiscate their property, emancipate their slaves, and treat them as public enemies. These opinions were at first received with caution by most public men, but they were finally sanctioned and adopted by the government. See also: 12 USC 95a; the 1917 Trading With the Enemy Act; The Banking Act of 1933 where the American People were made enemies of both the United States, Inc., and the Federal Reserve Corporation; 28 USC 2461-2465; and 50 USC 212-215. Thus Congress functions merely in an advisory capacity, pretending to legislate, as we have observed.

War Powers of the Executive Legitimate for Martial Law Dictatorship

Karen Hudes studied law at Yale Law School and economics at the University of Amsterdam. She worked in the US Export Import Bank of the US from 1980-1985 and in the Legal Department of the World Bank from 1986-2007. She established the Non Governmental Organization Committee of the International Law Section of the American Bar Association and the Committee on Multilateralism and the Accountability of International Organizations of the American Branch of the International Law Association. In 2007 Karen warned the US Treasury Department and US Congress that the US would lose its right to appoint the President of the World Bank if the current American President of the World Bank did not play by the rules. The 66 year old Gentlemen's Agreement that Europe would appoint the Managing Director of the IMF and US would appoint the World Bank President ended in 2010. Discover more @ <http://KAHudes.net>

Baltimore riot of 1861

The United States is in interregnum, as the secret military government has no legitimacy. None of the Governors of the 50 states and their Adjutant Generals were willing to go on record that the Constitution of 1789 is in force and effect. I posted these statements on the internet:

As Overseer Mandate Trustee of the Global Debt Facility containing the US' monetary gold reserves, I represent the voice and vote of the United States on the Board of Governors of the World Bank and IMF. <https://s3.amazonaws.com/khudes/Twitter2.8.16.1.pdf> The Federal Reserve is insolvent and in receivership in the Global Debt Facility, and liens are in effect on all of the Federal Reserve Banks, including the Federal Reserve Bank of Chicago. <https://s3.amazonaws.com/khudes/lucc3.pdf>
<https://s3.amazonaws.com/khudes/ucc1.pdf>

At the recently concluded spring meeting of the World Bank and IMF, the 188 Ministers of Finance and Development on the Board of Governors of the World Bank and IMF approved a global currency reset. <https://s3.amazonaws.com/khudes/lspringmeetings.pdf> Federal Reserve Notes are being phased out in exchange for Treasury Dollars and local currencies issued by villages and towns in the United States. Until the US monetary gold reserves in the Global Debt Facility are minted into Treasury Dollars, interim paper currency will be issued.

In addition to dissemination on the internet, this statement is going to the Development Committee, the New York Missions, and the Tokyo Embassies. As agreed in the 2015 Annual Meeting, I speak on behalf of the Board of Governors of the World Bank and IMF on matters concerning the Global Debt Facility, unless my statements are rescinded in writing by the member countries.
